

closer to nature[®]

.....sensitive tummy feeding bottle.....
instructions for assembly

STEP 1
before each use, hold up to the light to see the slit and pinch apart

STEP 2
fit valve to the end of the heat sensing tube, do not push on too far as damage could result

STEP 3
insert the heat sensing vent tube into the vent wheel

STEP 4
insert the assembled heat sensing tube with the vent wheel and valve into the bottle
